

Puppy School

Give your puppy the best start in life!

As a new pet parent, learning to understand your puppy's behaviour is invaluable. During the ages of 8-18 weeks, puppies absorb new information much easier and quicker than after this age. This makes Puppy School so important! It's also a great way to meet new puppy friends, be exposed to new environments, and learn about how to create a happy puppy and a happy household.

Classes are run by our experienced nursing team, one evening a week for 4 weeks. Our nurses are not only trained professionals but also great puppy cuddlers.

Puppy School is always so much fun! We cover:

- Basic canine communication, this helps us understand what they are feeling
- Common issues ie. digging & jumping
- Environmental enrichment, great ways to keep your puppy happy & stimulated
- Toilet training & sleeping through the night
- Basic commands such as sit, stay, drop, come & walk on a lead
- Tips on helping puppy adjust to their new life with you
- Learning the Importance of controlled interaction

Our nurses only teach gentle handling techniques, which puppies love!

We also include:

- A complimentary one on one nurse consultation to answer any questions that you may have about your own puppy. This helps you keep on track with their healthcare.
- A graduation ceremony with certificate, gift, and group photo!

How do you enrol?

- **Classes are held at the clinic, one evening a week over 4 weeks**
- **Time - 7.30pm - 8.30pm**
- **Cost is \$120, a great investment for a happy puppy**

**Payment is required at the time of booking to secure your place.*

To ensure everyone is fully protected, puppies will need to have had their 1st vaccination to attend. Please bring your puppy on a lead and collar and pack in any favourite treats.

The next class begins:

To make a booking or to find out when the next course starts, call us on 3881 0077 or use our convenient online booking form at www.northsidevetcare.com.
